

IntelliSchool On-Site Learning Opportunities and Support Services Plan

As required by Governor Doug Ducey's Executive Order 2020-51, 2020-41, and 202-44, schools must offer free on-site learning opportunities and support services by August 17, 2020.

Intellischool will open for distance learning on August 17. If you are parent with a critical need, please contact your site principal. The program will run during the normal school hours. Students will be supervised by staff while they work on their online instruction with their teacher remotely. Students will have access to the same curriculum resources as other distance-learning students. All persons will adhere to the safety and mitigation protocols and procedures established in Intellischool's mitigation plan.

The number of students will be limited, based on each school site's physical limitations and staffing capacity. Students will be selected for participation based on the following priorities and qualifications:

Students qualifying under McKinney-Vento

Students living in Foster Care

Students with no safe place to go as verified by school Principal/Student Support staff

Students with an IEP or 504 accommodation plan

Students meeting the criteria for ELL

Students whose parents are essential workers

Students meeting the criteria for free/reduced lunch

If you have questions, please contact your site principal to discuss how IntelliSchool can best support your student through this challenging time.
